

Voting during the COVID-19 crisis May 2020

Summary

- 47% of respondents said they were comfortable voting in their normal polling place.
 - 25-34-year-olds (69%), Republicans (60%), and males (58%) were most comfortable.
 - Women (35%) and 18-24-year-olds (31%) were least comfortable.
- 46% said it was unlikely that would vote in their normal polling place.
 - 75% of 18-24-year-olds said the Covid-19 crisis was "likely" to keep them from voting at their normal polling place this November.
 - Only 30% of 65+ said the same.
- 54% of respondents said that, in light of the Covid-19 crisis, they would prefer to vote by mail.
 - 70% of 18-24-year-olds prefer to vote by mail.
 - 25-34-year-olds (49%) and Republicans (45%) prefer to vote in person. These are the only two demographics that have a higher preference for voting in person over voting by mail.
- When it comes to the systems that allow voting by mail, 39% of respondents have a moderate level of trust in those systems. 21% possess a high level of trust.
- 35% of respondents believe the chance for voter fraud increases when allowing vote-by-mail. 23% of
 respondents believe that the chance for fraud increases, but also that the increased risk of voter fraud is worth
 it.
